

FITNESS

We're passionate about creating the perfect ride for every kind of rider. The high performance, fit and style of our Fitness bikes will inspire you to get healthier, commute more and spend more time on two wheels.

QUICK CARBON

The speed and agility of a road bike, with the comfort of an upright, sportive position.

QUICK SPEED / QUICK

These fast, fun, easy-to-ride bikes will get you off the spin cycle, out of the gym and onto the open road with a smile.

CAAD8 FLAT BAR

A blend of road-bike speed and upright comfort.

QUICK CX

On-road efficiency meets off-road ruggedness for adventuring, mixed surface riding and commuting.

TANDEM

It's better together. Double the fun, on road or off.

ADVENTURE

Comfortably luxurious performance for the casual cyclist.

QUICK CARBON

STYLISH, COMFORTABLE SPEED.

The all-new Quick Carbon blurs the line between upright recreational comfort and thrilling road bike speed. The ultra-light full carbon frame shares many of the design and performance features of our legendary road racing machines, wrapped in a package that lets the miles float by with ease.

QUICK CARBON IS:

- » Like a racing road bike, but with a comfortable upright position.
- » Light, agile, smooth and fast thanks to a full-carbon design.
- » The bike for fitness riders who demand the very best.

RIDER PROFILE

Fitness-oriented riders looking for a comfortable, high-performance and stylishly premium alternative to regular road bikes.

1 FULL-CARBON FRAME WITH INTEGRATED FORK

An all-new full carbon frame with a cleanly integrated fork provides bold design, racy performance and incredibly low weight.

2 ROAD-INSPIRED FEATURES

The Quick Carbon comes fully-loaded with our performance and rider-comfort enhancing SAVE seat stays, BB30 bottom bracket, and internal cable routing.

3 RIDER TAILORED GEOMETRY - QUICK CARBON

This rider position is oriented towards performance. Slightly longer and lower, it puts the rider in an efficient, centered, yet still comfortable position.

4 DISC BRAKES

To rein in all that speed, you can feel confident in the powerful disc brakes featured on the Quick Carbon.

5 COMFORT FEATURES

Quick Carbon features enhanced SAVE features in the rear triangle to absorb shock, soft-grip flat pedals and ergonomic grips and saddle for comfort.

6 RACK AND FENDER READY

Full rack and fender mounts expand the Quick Carbon's versatility and usefulness.

QUICK SPEED / QUICK

OUTDOOR HEALTH CLUB

With what we've learned making high-end road bikes, we've taken a performance-based approach to fitness cycling. The new Quicks' combination of light weight, smooth-riding comfort and balanced rider position provides a true Cannondale riding experience; on a new Quick, you'll go a little faster, ride a little further, and push yourself a little harder than you ever thought possible.

QUICK IS:

- » Cannondale performance with flatbar convenience and comfort.
- » Light, agile, smooth and fast.
- » With a wide range of models, there's a Quick for everyone

RIDER PROFILE

People looking to take their fitness goals out of the gym and experience more, whether it's morning hot laps around Central Park, completing an important charity ride or simply feeling the sun on their morning commute.

1 QUICK SPEED

For 2015, the Quick Speed replaces the former Quick SL. The all-new Quick Speed is lighter, has more pronounced SAVE features for comfort, and has a sleek, modern look.

2 INTERNAL CABLE ROUTING

Quick bikes feature internal cable routing, providing a sleek look and added value at each price point.

3 RIDER TAILORED GEOMETRY - QUICK

For Quicks, "Rider Tailored Geometry" means a balance of an efficient, sporty position with the confidence and comfort of heads-up riding.

4 NEW CUSTOM FORKS

Each Quick is paired with a custom Cannondale fork designed specifically for the frame, for a seamless look, great handling and noticeable weight savings.

5 COMFORT FEATURES

All Quicks have SAVE features in the rear triangle to absorb shock, soft-grip flat pedals and ergonomic grips and saddle for comfort and control.

6 RACK AND FENDER READY

Full rack and fender mounts expand the Quicks' versatility and usefulness.

QUICK CX

SPORT. UTILITY.

On-road efficiency meets off-road ruggedness. The Quick CX's mountain-bike inspired frame, 700c knobby tires, front suspension, and disc brakes make it the perfect vehicle for dirt road adventuring, off-road shortcuts through the park or all-weather commuting.

QUICK CX IS:

- » Mountain-bike stability mixed with road bike nimbleness and heads-up comfort.
- » The perfect blend of sport and utility.
- » Ready for any road, any weather, anywhere.

RIDER PROFILE

Someone looking for a bike that matches his adventurous spirit, whether that means exploring the fire roads of Big Sur or riding the cobbles of Soho.

1 MOUNTAIN BIKE INSPIRED FRAME

The lightweight but durable Quick CX frame is designed like a mountain bike for the road. With pronounced SAVE features and a smaller diameter 27.2 seatpost, it delivers a crisp yet comfortable ride.

2 OVERSIZED HEADTUBE JUNCTION

Massive 1.5" Si headtube is connected to an oversized top tube and down tube for a level of steering precision and control usually found only on the World Cup Circuit.

3 CUSTOM FORKS

For off-road control and on-road comfort, most Quick CXs are equipped with 50mm-travel, 1.5" steerer suspension forks, including the radically light and stiff HeadShok DL50.

4 DISK BRAKES

Disk brakes add all-weather braking power and control.

5 RACK AND FENDER READY

With rack and fender mounts, including low-rider fork mounts, the Quick CX is ready for anything from commuting to fully loaded overnight adventures.

EUROPE

TANDEM

THE BEST-IN-CLASS RETURNS TO SCHOOL THE COMPETITION

The Cannondale Tandem is back and better than ever with our adventure-ready road model and off-the-beaten-path 29'er model. Life is better together.

CANNONDALE TANDEMMS ARE:

- » The best performance value in the tandem market
- » Created with signature Cannondale alloy craftsmanship, featuring our smooth welds and class-leading weights.
- » Stiffer, lighter, more responsive and stable than the competition thanks to our oversized tube shaping, BB30 bottom brackets and performance-minded design.

1 1.5" FORKS

Cannondale OPI one-piece, hollow, 3D forged forks with 1.5" steerers provide stable, secure, nimble and responsive handling. Suspension corrected on 29'er.

2 BELT DRIVE

An all-new belt-drive system drops significant weight, maintenance, mess and hassle from the road tandem system (available on Tandem 1).

3 DISC-BRAKE EQUIPPED

Disc Brakes provide the confidence that when you (or your co-pilot) want to stop, you will.

RIDER PROFILE

For the rider looking to enjoy the journey...with company.

4 CANNONDALE ALUMINUM EXPERTISE

These big and beautiful tandem frames are a showcase of our 34 years of aluminum-crafting expertise. Purposeful tube shapes, strong double-pass welds, and unrelenting attention to the smallest details means that these tandems will perform like no other.

5 29'ER TANDEM

A more upright and adventurous model brings the strength, stability and smooth-rolling comfort of 29" wheels to the two-up crowd.
